Wow Factor Brand Recognition Merchandise

800.355.2935 • 616.735.1000 • info@greengiftz.com

Promotional Impact designed, prototyped and manufactured these one-of-a-kind business accessories for Herman Miller which showcase the fabric used on their top selling Aeron chair. The reps in the field use and give these items with pride, because the gift items reflect their brand identity.

Promotional Impact has been innovating “wow” factor gift items for Bissell, Dow, Herman Miller, Kellogg’s and many other great companies for the past 15 years. We’re actively designing and manufacturing items to meet the innovative / high design objectives at Herman Miller, Cascade Engineering (two leaders in Sustainability) and, for the past 16 months, creating custom earth friendly items to help GRAM (Grand Rapids Art Museum) launch it’s new brand identity as the first ever LEED certified art museum.
